

Sustainability & Environmental Policy Statement

2025

This statement is made by Trent Instruments Ltd with regards to the Environment Act 2021.

Trent Instruments Ltd recognise that it has an environmental responsibility. The Policy sets out the company's commitment to ensuring that sound environmental and sustainable standards are integrated into all operations and that environmental standards are applied. As an organisation Trent Instruments Ltd takes the requirement to comply with best practice of recognised regulations very seriously and due to this have been accredited with ISO9001:2015

Policy

This policy sets out the Companies commitment to sustainable development and aims to protect and contribute positively to the environment. We will develop in a way that meets the needs of the present without diminishing the opportunities of those in the future. We will take account of future generations, future employers and employees and consider what impact our actions now will have on their ability to manage, live and thrive. We will seek to promote an awareness of corporate environmental responsibility. As a user of physical, natural and human resources the Company aims to ensure that its operations are conducted in sustainable ways and we will set environmental objectives and develop appropriate systems to monitor and improve performance. We will encourage the support and involvement of all employees and in addition, work with external agencies, suppliers and interested parties to progress environmental initiatives, share and incorporate best practice. Through this we will protect the environment, including preventing any pollution and fulfil our compliance obligations.

In making a commitment to achieving sustainability and operating within a framework that includes economic, environmental and social factors, the Company aims to incorporate the principles of environmental sustainability into all aspects of our planning and operations. The Company is therefore committed to the following aims:

- ✓ Integrate environmental management policies and practices.
- ✓ Promote the protection of the environment and minimise the impact of its activities.
- ✓ Comply with relevant environmental legislation and take additional environmental protection measures.
- ✓ Promote the conservation and sustainable use of natural resources in all Company activities.
- ✓ Maintain and improve our Environmental Management System.
- ✓ Promote sustainable procurement methods and make efficient use of resources.
- ✓ Reuse and recycle equipment and materials where possible and dispose of waste in an environmentally sensitive manner.
- ✓ Promote sustainable forms of transport.
- ✓ Promote awareness and balanced understanding of environmental issues internally and externally.

The board has overall responsibility for the effective operation of this policy and for ensuring compliance with law. The Managing Director has overall responsibility for the day-to-day operational responsibility for this policy. Management are responsible for the communication of the policy and promoting active participation at all levels, whilst ensuring that activities under their control conform to the legal requirements and that good environmental standards are achieved and maintained.

This policy statement will be reviewed annually unless circumstances dictate it should be reviewed more frequently. The last review of this policy was on **30.07.2025**.
